REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

applicant has discovered a novel and unobvious salt of sibutramine which has an unexpected property of being much more soluble in water than the closest prior salt of sibutramine. The US patent 6,187,820 teaches a hydrate hydrochloride salt of sibutramine. This reference, as well as other, suggests that salts of methanesulfonate would be useful alternative to the hydrochloride salt.

However, none of the prior art of record suggests that the methanesulfonate salt of sibutramine would be much more soluble in water than the hydrochloride salt. Thus, applicant has unexpectedly discovered that the methanesulfonate salt of sibutramine is much more soluble than salts which were currently be used at the time of this application. All claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel A Barts whose telephone number is 571-272-2870. The examiner can normally be reached on 6:30-3:00.
